

## HOW TO BECOME A TEST PARTNER

**R**MOTC welcomes all inquires for energy-related field test projects including drilling, production, renewable, exploration, reservoir, facilities, and environmental. RMOTC engineers and project managers can provide the facility specifications and/or reservoir data necessary to determine how RMOTC can meet your field test requirements.

test project

- Description and proprietary nature of the technology, device, or process to be field tested
- Brief description of the anticipated general testing procedure and desired outcomes
- Desired or anticipated start schedule

### Joint Work Statement

The Joint Work Statement is a detailed project plan that includes:

- Field test parameters and milestones
- RMOTC facilities/supplies to be utilized
- Engineering and construction design requirements for any proposed new test facilities
- Work and contracting responsibilities for the test partner(s), RMOTC, or third parties
- Total project costs and in-kind contributions
- Environmental, safety and health compliance, insurance, and any other reporting requirements

### Getting Started

To become a testing partner, RMOTC will assist you with the following steps:

- Step 1 – Develop a Project Proposal
- Step 2 – Design a detailed project plan as a Joint Work Statement
- Step 3 – Determine a funding arrangement

### Project Proposal

The Project Proposal is an overview of the field test project and should include the following information. More detailed information may be requested after the preliminary review.

- Contact information and the names of other company representatives to be involved in the field

### Partner Agreements

At this time, we can only offer funds-in agreements for our partners. Under this agreement, the testing partner pays 100 percent of the costs and has full confidentiality and control over intellectual property developed at RMOTC, where the testing partner funds 100 percent of the costs.

A Memorandum of Understanding (including Letter of Agreement form) can be used by RMOTC to partner with other U.S. government entities.

### Contact

For more information on how to submit a field test proposal, contact RMOTC toll-free at 888.599.2200, or visit our website at [www.rmotc.doe.gov](http://www.rmotc.doe.gov).
